Alfred Johansson

GAME DESIGNER & DEVELOPER

EXPERIENCE

2026

Jun - Aug

Game QA Intern

Odd Raven Studios · Stockholm

- Playtest an unannounced title in structured daily sessions, reproducing bugs and level-design issues across controller and keyboard/mouse and documenting them with clear reproduction steps and recorded playthroughs.
- Write actionable bug reports and design feedback with suggested fixes, and reworked the studio's reporting workflow into a tagged, filterable format that makes prioritisation easier for the dev leads.
- Onboarded independently through the studio's internal documentation, learning a new version-control system and the studio's conventions, and gaining first-hand insight into a professional development pipeline.

2025

- 2026

Vice President, Student Association

LVL - Södertörns högskolas studentförening

- Led the association's events and gatherings for game-development students, coordinating the team and owning communication with external partners.
- Designed and led hands-on workshops introducing new students to game development, building confidence in planning, presenting and leading groups.

2021

- 2023

Data Analyst & Research Assistant

Foodfacts Sweden · Remote

- Delivered data analysis fully remotely, developing strong self-management, accuracy and clear written communication.

NOTABLE GAME PROJECTS

2025

Steam

Murmurs of the Mist - Lead designer & programmer

JamJam Studios · co-op puzzle game

- Shipped a co-op puzzle game on Steam, leading programming and design from first prototype through release in a student team.
- Owned the tech foundation as CTO (Unity, Perforce, build pipeline) and designed gameplay, levels, narrative and UX/UI.

2026

In dev

Pizza to Hell - Team lead & designer

Pizza to Hell HB

- Lead the team as arbetsledare, keeping systems modular and integration-ready by setting the workflow and running sync meetings.
- Built the finisher-move system from scratch (combat → dedicated finisher state), enabling clean integration across team-owned modules.
- Cut audio-sync effort with an animation-event-driven footstep system; handled technical art (lighting, sound, animation) and finisher-move cameras.

EDUCATION

2023

- 2026

Bachelor of Media Technology

Södertörn University · focus on game development, design and scripting

2020

- 2023

Upper-Secondary Diploma in Technology

LBS Creative High School
